

DESTONER SK

VAN DIJKE DESTONER EFFICIENT AND ECONOMICAL DESTONING

Compact basic destoner

The Van Dijke SK-series destoner is the basic machine for removing rocks, clods and other heavy parts from your produce, such as potatoes and carrots. Thanks to the advanced and adjustable water circulation pump system, your product is carefully separated from the heavier parts in the most product-friendly manner.

How it works

The system separates heavy parts such as rocks and clods from the produce by means of an adjustable upward water flow, with which the separation process can be set very precisely. The water is pumped around internally in the machine, requiring only a small amount of clean (or recycled) water. In addition, the machine is equipped with internal sedimentation system, which ensures that the water in the machine can be recycled internally. This machine is also equipped with the latest industrial grade discharge conveyor and head scraper.

MAIN ADVANTAGES:

EXTREMELY LOW WATER CONSUMPTION

COMPACT AND MODULAR DESIGN

SIMPLE AND MINIMAL MAINTENANCE

AVAILABLE IN BOTH STAINLESS STEEL
AND GALVA

SIMPLE OPERATION

STRONG

The Van Dijke SK-series destoner is very compactly designed and built, so that it can easily be used in a line or stand-alone. The SK-series is available in 2 types, with capacities up to 15 and 30 tons per hour. The machine can be produced in both galva (fully galvanized version, with partly stainless steel belt frames / top shielding) and fully stainless steel. Due to the modular system, the output direction of the stones can be mounted either to the right or to the left.

**EXCELLENT
QUALITY**

**EXTREME LOW
WATER CONSUMPTION**

**SMART DIRT
REMOVAL SYSTEM**

AVAILABLE CAPACITIES:

Type:	SK320	SK320 PLUS
Capacity [t/u]:	≤ 20	≤ 30
Size LxWxH [mm]:	3.300	3.600
Infeed height [mm]:	2.700	3.200
Weight [kg]:	2.500	2.700
Max diam. rocks (mm):	1.900	2.000
	1.800	1.800
	160	200

ABOUT VAN DIJKE

Van Dijke Groep has been a reliable partner for innovative machines and systems in the AGF industry for more than 60 years. Our focus is on delivering high quality machines with low water consumption, smart solutions and excellent service. We help you to optimize your production processes.

Contact us today and discover the benefits of the Van Dijke Destoner for your production process!
